By 9:00 p.m. Tuesday I was in bed reading and fell asleep shortly after. I was first aware of a disturbance between 3:00 - 3:30 a.m. Wednesday morning. My dogs were barking & woke me. Since they do this at noises during the night, I tried to ignore them. Finally I got up & looked out. I saw the glow on the hills & worried the woods were on fire. Fire trucks started coming down the mountain. At approximately 3:30 a.m., I walked down the driveway & realized Victor & Alla's house was burning.

When I got close to the double-wide trailer, I saw people on the porch & went to ask them if Victor & Alla were safe. I believe that people from both trailers were there. One man told me he heard an explosion & saw a vehicle without lights leave the driveway. I did not see the people from the wood-siding house in the 2 hours I waited to hear about the Kolenikows.

I waited with other neighbors until Victor's sister was told a body had been found. Giving up hope, I went home.

Sally Pellicciotti

I was not aware of any guns that the Kolenikows owned.
